ROLAND B. MOLINEUX TO HAVE AN-OTHER CHANCE FOR LIFE.

Court of Appeals of Opinion that the Lower Court Erred in Admitting Barnet Case Evidence.

DECISION OF THE JUSTICES

ALL WERE IN FAVOR OF REVERSAL OF THE TRIAL COURT.

But Three Held that Certain Evidence Was Admissible-Molineux Ignorant of the Court's Action.

ALBANY, N. Y., Oct. 15 .- The Court of defendant sent the poison to Cornish." Appeals has granted Roland B. Molineux a York city, and sentenced to death. The opinion written by Judge Werner, of Rochester, his principal ground being that the lower court erred in admitting evidence as to another alleged crime, the death of Barnet, and thus merged two issues.

they have no relative to each other and that the evidence which tends to prove the killing of Barnet throws no light upon the motive which actuated the attempt upon the life of Cornish. So apparent, indeed, is this diversity in the two cases that the learned counsel for the people upon the argument herein, abandoned the between them, and ingeniously sought to create a single motive out of the alleged forgeries by the defendant of the names of Barnet and Cornish. Of course, no inference can be drawn from these alleged forgeries without assuming that 'Barnet' and 'Corevidence and proven to have been written by the derengant. We will therefore assume that all of these letters were properly in evidence, that they were written by the defendant and that he was therefore guilty of the crime of forgery in each of these names.

NO LIGHT ON INTENT. After summarizing the theory of the prosecution that the murder of Mrs. Adams was the result of a plan devised by the defendant to kill Cornish by means of a DEPUTIES IN FAVOR OF PERMITTING rare and deadly poison concealed in a powder in common use as a remedy for trifling ailments, the court says: "Throughout the length and breadth of the testimony relating to the death of Barnet there is not a suggestion of a fact which throws any light upon the intent with which the poison was sent to Cornish, or which serves to support or strengthen the inferences as to intent which may be drawn from the evidence tending to show that the Further on the court says: "Assuming Barnet to have been killed by the defendant, the crime has its own separate motive, intent and plan. It is equally true of the crime charged in the indictment. The mere fact that the two crimes are court grants a new trial on a prevailing parallel as to the methods and means employed in their execution does not serve to lentify the defendant as the poisoner of crime may be interred from its similarity to the former. Such an inference might be ustified if it had been shown conclusively Justices Parker, Haight and Gray did | that no other person could have killed Mrs. | not believe that the Barnet evidence should Adams. ROLAND B. MOLINEUX IN PRISON CELL.

On purely technical grounds the New York Court of Appeals has decided to give Roland B. Molineaux, the New York clubman under sentence of death for the poisoning of Mrs. Kate Adams, another chance to prove his innocence of the crime. The famous trial of two years ago, which resulted in his conviction, attracted wide attention throughout the country on account of the high social standing of the accused and the sensational details brought out at the trial. If but three banks enter the deal the other banks will liquidate and will turn over \$500,000 as their share of the capitalization and divide the remaining assets among the stockholders as dividends. The matter has gone so far that a committee from each bank is working on the proposition.
